Who am I?

I am an accredited Counsellor within the Oasis Practitioner Community. I work in Ilkley, Otley and Boston Spa.

I am over fifty years old, a father of two young adults. After studying History at university, I worked for twenty-four years in a business environment.

Life began, for me, at forty when I started my own journey in personal development. Since then I have grown to understand how I, and other people, manage ourselves in this world.

I find my own life experience invaluable in helping me to work with other people. I am essentially forward looking and concerned with personal change and personal development

I work with individuals and couples, experiencing a range of issues

I am a counselling supervisor and facilitator of Human Relations courses with the Oasis School of Human Relations.
