

Rob Ainley D.O, LCSP (phys), HPC

As manager of Ilkley Healing Centre, with over 17 years of clinical experience, Rob can offer a unique blend of advanced techniques, knowledge, experience and advice.

After initially qualifying at the Northern Institute of Massage in 1989, Rob went on to undertake advanced training in Osteopathy (Durham) and Cranial Osteopathy at the Manchester School of Osteopathy. As a registered Physiotherapist with the Health Professionals Council and the London & Counties Society of Physiologists*, Rob also continues to augment his training through CPD (Continuous Professional Development).

In 2005, Rob and his wife Sue established Seeing Hands Nepal, a charity that aims to teach massage skills to young blind people in Nepal. After designing a comprehensive training program: Rob began teaching groups of blind students and has since established a new training centre in Nepal. He now travels there regularly, along with volunteer trainers, and hopes to provide a sustainable future for his young and disadvantaged blind students.
